Subject: [EXTERNAL] npr seeks interview TODAY on drinking water tested

Mr. Jacobus,

Samantha Villegas shared your email address with me. Would you be available for a quick interview today on how drinking water is tested for contaminants?

It's meant to explain why the West Virginia utility wouldn't have found the second contaminant, PPH, even though it was rigorously testing its water.

Thanks very much for your consideration. I'd appreciate speaking with you at your earliest convenience. I'm booked from 1130-1pm. But free before and after that.

Sincerely,

Elizabeth Shogren

NPR Correspondent
